

GEORGE MONTEIRO

Videographer / Editor

PROFILE

George is a multi faceted Editor, with a vast array of skills honed and perfected over several decades working with the top corporations and producers in the South Florida region. Although he is good at many aspects of production his greatest passion is in post production.

George began his television career as a cameraman for NBC News. Being bilingual, he covered hundreds of national and international stories in the Caribbean and Latin America. As he tired of traveling, George became a skilled online editor at **Video QuickLab** in Fort Lauderdale, FL, where he became chief editor. He later parted ways with QuickLab and formed **Media Solutions**, a cutting edge digital production company specializing in digital acquisition, digital post-production, and digital delivery of electronic media for companies wishing to promote and market themselves via the internet.
